November 30, 2023

To Whom it May Concern,

Juan Chavez was employed by Terra Technologies, LLC starting in July 2018. Juan left in June 2023 amicably and professionally after nearly 5 years of dedicated work. Juan's departure to see additional education in another field was difficult for our team but admirable for the opportunities he has in front of him. During his time with Terra, he demonstrated all the qualities that employers seek in searching for hard working employees. From yearly reviews with him he was consistently found to be reliable and able to assist on any task asked of him. His positive attitude and desire to learn made him a valuable member of our team.

I highly recommend Juan for any position or career he is pursuing. Juan's responsibilities included early coordination with municipalities and engineering firms desiring information from CenturyLink, field investigations of existing telephone facilities, Outside plant facility locating, Civil 3d AutoCAD, Municipal permit creation, designer in Lumen proprietary drafting system NDS, and the last year included project management assistance to me personally on large and small projects. I believe he has the key skills to succeed in his professional career and be a vital asset to any organization.

If you have any additional questions, please do not hesitate to call, or email me as I'd be happy to discuss more about Juan.

Sincerely,

Jason Jensen
